

ITO[®] DESIGN

Company: ITO DESIGN
Location: GERMANY – Nuremberg, Bavaria
Job Level: Intern
Field: Industrial Design
Job Functions: Design, 3D Modeling & CAD, Product Development, Research, User Experience
Start Date: March or April of 2008
Period: Six months

Description

ITO Design, located in Nuremberg, is looking for talented interns to join us for a six months time beginning in March or April of 2008.

ITO Design is an innovative, technically oriented industrial design company, with a distinct focus on the development of highly functional products for the office furniture industry. For 20 years our clients in Europe, North America and Asia value our profound expertise in conjunction with our sensitive view on the market.

If you're able and willing to create and illustrate innovative product concepts in the form of hand sketches and CAD renderings you'll find a demanding job amongst a pleasant team of 8 young & ambitious creative people at ITO's.

Specific Skills

We are looking for a candidate (at least in his/her 2nd year)

- with excellent visual communication skills*
- with 3D solid and surface modeling skills in Solidworks and/or Rhino and/or Alias*
- who is fluent in English or German*
- who is a good team player*
- who has basic knowledge of materials and processes*
